2021 EAB Virtual Event

BIOMETRICS CHALLENGES IN THE EUROPEAN BANKING ECOSYSTEM

in cooperation with CLR Labs

The EAB is organising on **April 21 and 23, from 9:30 am to 1:30 pm CEST**, a virtual Conference on the evolving role of biometrics in securing banking industry ID transactions.

It will be run and moderated in cooperation with Cabinet Louis Raynaud (CLR Labs).

Fifteen Speakers from various **EU Agencies, Inter-Banking Associations, National Data Protection** and **National IT Security Agencies**, as well as expert consultants in **ID banking security, certification, standards**, and specifically related biometric solution providers will explain and comment the various components of the European banking ecosystem and their complex inter-relations to harmonize, maintain and develop robust and sustainable biometric ID transactions' security. An expert **panel discussion** will analyse the respective needs, risks and opportunities for more controlled, regulated and standardized use of biometrics in emerging banking transaction modalities.
